

# New. Improved. Convenient.

Your online banking now  
has a new look and feel.

We're making improvements to Collins State Bank's online banking – helping you stay connected to your money, with added convenience and confidence.

On February 10<sup>th</sup>, you'll notice:

## An optimized experience

Whether you access online banking from a desktop, tablet or smartphone – the experience will adapt to your device – and include touch-enabled capabilities.

## Improve navigation and functionality

With new navigation and design, you will have easier access to key features such as Loan Payments, Transfers, and Bill Pay. This will make it faster to find the information and tools you need.

## Simplified payments

Our new bill pay dashboard allows you to pay multiple payees at once, change funding accounts based on payees, view recent payments, and track payments coming due – all from one screen.

Rest assured, you'll find the same advanced security you know and trust with Collins State Bank. And all your payment information remains intact.
